

Press Release – March 2021

The 123rd IATP Conference took place virtually on March 8 – 10, 2021.

More than 400 Airline and Associate member representatives from all over the world joined this second virtual conference, to discuss and finalize terms and conditions for pooling agreements regarding spare parts, aircraft recovery equipment, and line maintenance support for the forthcoming season.

During the three conference days, the participants had the opportunity not only to discuss the latest issues affecting the air transport operations, such as the Covid-19 outbreak and the Brexit, but also to review and move forward with projects such as the Engines Pooling and the Third-Party Pooling.

The new introductory sessions about IATP and pooling scheduled prior to the official conference days were appreciated by the participants. The navigation on the virtual event platform and the participation in B2B meetings or webinars were convenient.

IATP Board of Directors, Pool Groups, Project Groups & Committees Chairpersons, and IATP Corporate Office Team.

Conference Testimonials

"Airline members were once again able to meet through a virtual event platform for the 123rd IATP Conference. It would not have been possible without IATP team's support. The virtual meetings not only helped the airlines to maintain their friendly business relationships with each other but also proved to rejuvenate high morale and spirit among all, which was much needed during this hard time."

Mrs. Uzma Naseer, Material Planning Controller - Outstation Support – Emirates Airline

"The Covid-19 Pandemic has debilitated our industry since the start of 2020. While an in person conference is much preferred, it was a pleasure being able to connect with industry peers again. We are beginning to increase international frequencies so maintaining relationships globally is a large key to our future success. The 123rd IATP Virtual Conference was executed as best as any virtual conference could be hosted."

Mr. William Leiser, Supervisor IOC AOG Desk – American Airlines

If the situation at that time permits, the next IATP Conference will be organized in October 2021, in Copenhagen, Denmark.

The IATP Mission Statement

The IATP is a convention of Airlines sharing Technical Resources to generate economic savings and support on time dispatch reliability and operational safety. The IATP is a non-profit, independent, non-political global organization based on a democratic culture with equal opportunities for all member Airlines and their delegates.

Technical Resources includes, but not limited to, aircraft spare parts, line maintenance, ground handling equipment, aircraft recovery kits and technical training.

About IATP

Today IATP counts 118 airline members and 37 associate members (service providers and OEM) and operate worldwide in about 900 stations; pooling activities cover almost all aircraft types. All member airlines meet twice per year at conferences held in March and October in different countries. The organization is managed by the member airlines through the elected Board of Directors. The operations are coordinated by a Corporate Office based in Luxembourg.
